

# REDUCE RISK OF INFECTION

**Wash your hands** with soap and water for 20 seconds or use hand sanitizer that is at least 60% alcohol-based.

**Avoid touching your face.**

**Cover your nose and mouth** with a tissue or flexed elbow when coughing and sneezing (immediately discard tissues and wash hands).

**Stay home if you feel ill.**

**Avoid close contact** with people who appear ill, and don't shake hands with anyone, whether they show symptoms or not (elbow bumps work well instead).

If you find a restroom in need of restocking or attention, please call 901.678.2699 to make a request for service.

## SAFER SALUTATIONS

DO YOUR PART to keep the community healthy by interacting with others in ways that minimize the spread of airborne illnesses.
