

PH-IDEAS is a collaboration between Shelby County Health Department and the University of Memphis School of Public Health, funded by the Centers for Disease Control and Prevention.

PH-IDEAS is proud to sponsor a two-part workshop series:

Workshop 1:
Hosted by EcOP (Economic Opportunities) for the Justice-Involved:

Exploring the use of **fictive kinship**, **emotional literacy**, and **narrative therapy** to center Black lived experiences.

Workshop 2:
For Shelby County Health Department Employees:

Focusing on enhancing awareness of **compassion fatigue** among staff, fostering a more resilient and supportive workplace.

EcOp is a non-profit empowering justice-impacted, under-resourced adults in Greater Memphis by providing sustainable jobs, life coaching and spiritual guidance through mentoring.

Public Health
Prevent. Promote. Protect.
