

SNAP Recipients in the Memphis MSA Counties

October 2025 Supplement to the 2025 Memphis Poverty Fact Sheet

On average, between 10% and 20% of the households living in the counties that compose the Memphis Metropolitan Statistical Area (MSA) (Crittenden in Arkansas; Benton, DeSoto, Marshall, Tate, and Tunica in Mississippi; and Fayette, Shelby, and Tipton in Tennessee) receive food stamps/SNAP benefits, but when only households with children under 18 are considered, the percentages are extraordinarily large. In most of these counties more than half of households with minor children depend on food assistance. Any disruption to food assistance will mean that more than half the families with children in this region will experience hunger.
